

## Post-doctoral Fellowship

Simon Fraser University  
Aging, Technology and Dementia

Dr. [Sylvain Moreno](#) is offering a postdoctoral fellowship in aging and technology research. This post-doctoral position aims to investigate integrated models of dementia care, study real concrete solutions to sustain or improve health in aging population (i.e., training, activities), and the determinants of dementia over the lifespan.

The successful applicants will be scheduled to start in Summer/Fall 2019. The duration of the award fellowship is 1 year, with the option of continuing for a second year. Bursaries are in line with post-doctoral fellowship scales of Simon Fraser University and the Canadian Institutes of Health Research, and include research expenses. International applicants are welcome to apply for these positions.

The applicant should have a PhD or equivalent degree and is expected to be of a high caliber with an excellent academic and publication track record. Preference will be given to applicants with experience working with aging populations, but candidates with other relevant skills such as social experimental methodology, user design, psychology or neuroimaging may be appropriate.

The candidate should have a high level of effective organizational, time management and personal initiative skills, along with excellent oral and written communication abilities. Furthermore, interpersonal skills are critical as the candidate will interact with several team members from academia, industry, and the BC community of seniors on a frequent basis. Candidates must have received a PhD within the last five years (or pending) from a field related to the job requirements.

Applicants should submit a CV and relevant reprints, together with a cover letter describing current research interests and future research goals, and also arrange to have three letters of reference. Letters will be required if the applicant is short-listed. Applications will be reviewed as soon as submitted.

**Applications must be sent as soon as possible to Dr. Sylvain Moreno, [sylvainm@sfu.ca](mailto:sylvainm@sfu.ca), and copied to [kkleffne@sfu.ca](mailto:kkleffne@sfu.ca)**
