

RSRI PROGRAM: GUIDELINES

Projects wanted

- Innovative research projects related to medical technologies lead by industry.
- The projects must have direct economic benefits in Québec.

TRL ?! What is your Technology's Readiness Level?

TRL 1-3: From basic principles to proof of concept.
TRL 4-6+: From experimental validation to demonstration in a representative environment.

Financial support and partnership

	TRL 1-3	TRL 4-6 +
MEDTEQ contribution (max.)	40 %	20 %
	Up to 500k \$/year for 3 years: 1.5M \$ per project	
Public contribution (max.)	80 %	60 %
Industrial contribution (min.)	20 % (in cash)	40 % (min. 20 % in cash + max. 20% in kind)
Industrial partner(s) (min.)	2	1
Research institution (min.)	1	1

Industrial partners

- Every project must have at least 1 industrial partner that has R&D and/or manufacturing activities in Québec.
- The other companies can be Canadian or foreign.
- All partners must be members of MEDTEQ.

Eligible expenses

- The expenses incurred in **Québec** are eligible.
- The funds are transferred to the **lead researcher (PI)** through his **Lead Research Institution**.

Co-funding opportunities

- NSERC (including industrial chairs), MITACS, AGE-WELL, NRC (IRAP), CIHR, etc.

Intellectual property (IP)

- The IP agreement is negotiated between the participants of every project. MEDTEQ does not claim any IP.

**SUBMISSION OCCURS EVERY
3 MONTHS**

It is mandatory to contact MEDTEQ regarding the project you plan on submitting, ideally at least 1 month before your chosen deadline.
